**From Editors Desk:**

International Women's Day is a worldwide event that recognizes and celebrates the social, economic, cultural, and political contributions and achievements of women. It is commemorated annually on the 8th of March across the globe.

The theme for International Women's Day 2026, "**Give to Gain,**" highlights the idea that meaningful progress and empowerment can be achieved when individuals contribute their time, knowledge, and support. As noted on the official International Women's Day platform, "*We can all give our support to gain advancement for women and girls.*"

On this meaningful occasion, the Women Cell of Pub Kamrup College is pleased to present an e-journal titled **ESHANA: Through Women's Lens**. A dream initiative of the Cell, envisioned as a space where women's voices, perspectives, and experiences can be expressed, explored, and celebrated. In the future, we hope to develop it into a comprehensive research journal.

With optimism and determination, we look forward to nurturing this initiative and strengthening the platform for women's expression and scholarship.

Regards,

Dr. Nayanmoni Baruah

Chief Editor
