# Summer Internship Program

## Introduction:

Pub Kamrup College has always cherishes the notion that the country needs researchers to contribute to the growth of the nation economically, technologically, culturally and academically. It is a common realization on the part of the teaching fraternity that research for academic pursuit only contribute very little for the welfare of the nation; one has to consider research as a culture. The level of difficulty of motivating students to research activity increases with the passage of time. Hence, college is the best level in which the institution should try to build the research culture among the students. This realization led Pub Kamrup College to introduce a program called 'Summer Internship Program' in July, 2019 after an official notification served by the then Principal Dr. Balendra Kumar Dev Choudhury. The notification is available in (http://www.pubkamrupcollege.co.in/upload/research/Notification%20on%20one-week%20Summer%20Internship,%202019.pdf).Though each and every Department could not hold the program, a few Departments of the college organized this internship program.

## **Objectives:**

The objective of the program was

- To let the students know the basics of research.
- To grow interest for research among the students
- To make the students best utilize the holidays

### **Methodology:**

The pedagogy for the program was classroom teaching, hands-on training etc., library reading, home and class assignment etc.

### **Outcome:**

The outcome of the program was immense. Apart from science students the students from the Department of Assamese showed keen interest for more such program. The Assamese Department, which conducted the internship program on Translation, ultimately enabled the Department to publish a translated collection of short stories. The collection came to light on 31/3/2021.

Following are some of the snapshots of the internship program conducted by the Department of Assamese and the inauguration of the book.
